

## **ANNOUNCEMENT OF ANTICIPATED PROCUREMENT FOR SCHOOL REPAIR AND REHABILITATION WORKS**

Community and Family Services International (CFSI) is the Partner of UNICEF for the Child Protection in Emergency Response Project (CPERP) in the CARAGA Region and, as such, is the primary procuring entity for the project. CPERP supports the education sector by addressing the damage brought by Typhoon Odette to selected schools in time for the opening of schools.

With this announcement, CFSI wishes to inform duly registered contractors and construction firms of upcoming opportunities to participate in the request for quotations for various school infrastructure repair and rehabilitation works, such as:

1. Civil Works – structural repairs (roofing/ceiling works, walls); and
2. Finishing works – windows and doors installation; painting works.

The bid packages are expected to have Contract Prices within the range of P1 Million to P1.2 Million, and to be implemented in specific municipalities affected by Typhoon Odette in Siargao Island, Surigao del Norte, and the Province of Dinagat Islands.

It is expected that formal Requests for Quotations will be issued in 19 August 2022.

Interested eligible bidders may obtain further information about the school repair and rehabilitation works and the general rules for procurement by sending an email addressed to the Chairperson of the Procurement and Evaluation Committee at [cperpproc@cfsi.ph](mailto:cperpproc@cfsi.ph).
